

B1

181. (new) A method as set forth in claim 180 further comprising establishing a seal between the probe and the fill port before injecting said quantity of catalytic fluid, and maintaining said seal until after closure of said valve.

REMARKS

New claims 178-181 are added to supplement the scope of patent protection sought for the present invention.

* Enclosed is a check (included with application fee and surcharge fee) in payment of the fee for the additional independent claim.

Applicants respectfully request favorable consideration and an early allowance of this application.

Respectfully submitted,

Michael E. Godar
